SFDR Fund Classification**:

Article **8**

In a constantly changing and complex environment, investment decisions on the right asset classes, areas or sectors at the right time can be really difficult for investors looking for diversification and long-term saving solutions. Carmignac Patrimoine, the mixed fund at the heart of Carmignac's story, is a product suited for these investors.

Carmignac Patrimoine is a UCITS fund and is invested in global equities, bonds and currencies. It aims to outperform its reference indicator⁽¹⁾ over a 3-year period. At least 40% of the assets are permanently invested in fixed income and money market instruments. Its flexible allocation aims to mitigate capital fluctuation while seeking the best sources of return.

KEY POINTS

A **global dynamic asset allocation** and an active management of market exposure to look for the best portfolio mix.

Risk Management at the heart of the process to limit potential losses as well as to seize opportunities when they arise.

Conviction-driven approach, looking to benefit from **long-term investment trends**.

Combining **long-term growth & resilience** with a socially responsible focus.

BENEFIT FROM A TRULY FLEXIBLE FUND

FLEXIBLE EQUITY EXPOSURE

Identifying long-term investment trends, under-appreciated by consensus, is a distinctive feature of our global equity management.

BROAD MODIFIED DURATION RANGE

Balanced and complementary approach, combining top-down interest rate strategy with long-term bottom-up credit picking.

CURRENCY EXPOSURE

Active management of currency exposure to boost performance or manage risk.

MAIN RISKS OF THE FUND

EQUITY: The Fund may be affected by stock price variations, the scale of which is dependent on external factors, stock trading volumes or market capitalization.

INTEREST RATE: Interest rate risk results in a decline in the net asset value in the event of changes in interest rates.

CREDIT: Credit risk is the risk that the issuer may default.

CURRENCY: Currency risk is linked to exposure to a currency other than the Fund's valuation currency, either through direct investment or the use of forward financial instruments.

The Fund presents a risk of loss of capital.

(1) of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion doesn't charge any entry fee. The person selling you the product will inform you of the actual charge.

(2) We do not charge an exit fee for this product.

(3) of the value of your investment per year. This estimate is based on actual costs over the past year.

(4) of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.

(5) max. of the outperformance once performance since the start of the year exceeds that of the reference indicator and if no past underperformance still needs to be offset. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years, or since the product creation if it is less than 5 years.

(6) Please refer to the prospectus for the minimum subsequent subscription amounts. The prospectus is available on the website: www.carmignac.com

Modified duration: A bond's modified duration measures the risk attached to a given change in the interest rate. Modified duration of +2 means that for an instantaneous 1% rate increase, the portfolio's value would drop by 2%.

Top-down investing: An investment strategy which finds the best sectors or industries to invest in, based on analysis of the corporate sector as a whole and general economic trends (as opposed to bottom up investing).
